Ref.
AI 21 . T46 July-Dec. 1934

The Index is compiled from the final edition of THE TIMES

The editions are denoted by stars in the top left-hand corner of the front page. Thus *** denote the earliest edition, each subsequent edition having a star removed.**

References to matter appearing only in the earlier editions are given thus : (5*) = *** edition ; (4*) = **** edition, &c. Changes of page or column are also noted.**

In each entry the first numeral indicates the day of the month and the second the page. The letter in italic type indicates the column of the page : for reference purposes the columns of each page are supposed to be lettered from left to right—*a, b, c, d, e, f, g*. Thus JULY 14, 9*c* denotes the issue of JULY 14, page 9, and column 3.
